Georgia Minority Health Advisory Council Addendum

Because of Georgia's racial and ethnic diversity, and a dramatic increase in segments of the population with Limited English Proficiency, the Georgia Minority Health Advisory Council is working with the Department of Community Health to assess our health systems' ability to provide Culturally and Linguistically Appropriate Services (CLAS) to all segments of our population. We appreciate your willingness to provide information on the following questions:

Do you have paid medical interpreters on staff? (Check the box, if yes)

If you checked yes, how many? (FTEs)

11

What languages do they most often interpret?

Spanish, Vietnamese, Korean

When a paid medical interpreter is not available for a limited-English proficiency patient, what alternative mechanisms do you use to assure the provision of Linguistically Appropriate Services? (Check all that apply)

Bilingual hospital staff member

Community Volunteer Interpreter

Refer patient to outside agency

Bilingual member of patient's family

Telephone interpreter service

Other

Please describe

Staff are assessed for fluency in their native language and communicate directly with their patients.

Please complete the following grid to show the proportion of patients you serve who prefer speaking various languages (name the 3 most common non-English languages spoken.):

Top 3 most common non-English languages spoken by your patients	Percent of patients for whom this is their preferred language	# of physicians on staff who speak this language	# of nurses on staff who speak this language	# of other employed staff who speak this language
Spanish	10	0	0	0
Vietnamese	1	0	0	0
Korean	1	0	0	0

What training have you provided to your staff to assure cultural competency and the provision of Culturally and Linguistically Appropriate Services (CLAS) to your patients?

All new interpreters must complete computer based learning on interpretation services. In addition, they must complete fluency assessments and additional in-service training is provided through the organization. Community resources available in multiple languages. Language census report generated automatically twice per day at each nurses station. Interpreters round daily on all LEP patients.

What is the most urgent tool or resource you need in order to increase your ability to provide Culturally and Linguistically Appropriate Services (CLAS) to your patients?

As Northside continues to grow we will benefit from hiring interpreters that speak other languages to accommodate the Gwinnett patient population.

In what languages are the signs written that direct patients within your facility?

Language One:

English

Language Two:

Spanish

Language Three:

Language Four:

If an uninsured patient visits your emergency department, is there a community health center, federally-qualified health center, free clinic, or other reduced-fee safety net clinic nearby to which you could refer that patient in order to provide him or her an affordable primary care medical home regardless of ability to pay? (Check the box, if yes)

If you checked yes, what is the name and location of that health care center or clinic?

Nurse Employment Addendum

Did your facility employ one or more nurses holding a multistate license pursuant to O.C.G.A. § 43-26-60 et seq. for 30 days or more in 2025 (January 1, 2025 through December 31, 2025)? (Check the box, if yes.)
